VISION AND MISSION OF THE INSTITUTE

Vision

We develop a globally competitive workforce and entrepreneurs

Mission

Dr.Mahalingam College of Engineering and Technology, Pollachi endeavors to impart high quality; competency based technical education in Engineering and Technology to the younger generation with the required skills and abilities to face the challenging needs of the industry around the globe.

This institution is also striving hard to attain a unique status in the international level by means of infrastructure, state-of-the-art computer facilities and techniques

VISION AND MISSION OF THE OFFICE OF DEAN RESEARCH & INNOVATION

Vision

To become a globally recognized hub of pioneering research and innovation, driving transformative advancements in engineering and technology for the betterment of society.

Mission

- Foster research excellence and innovation, by identifying potential IPR, offering financial support for filing, facilitating revenue sharing from consultancy collaborations, and rewarding faculty through fair incentives.
- Strengthen research interest groups, empower the student research council, and publish the R&I newsletter to promote and celebrate achievements in the domain of research and innovation.
- Disseminate knowledge through the publication of research, knowledge-sharing sessions, seminars, faculty development programs, workshops, inter and intra-college technical symposiums, conferences, and open-house exhibitions.
- Offer state-of-the-art research facilities and resources to facilitate interdisciplinary research projects, secure research funding, conduct research with industry partners, and carry out PhD works.
- Review Ph.D. scholars' progress, department R&I activities, ongoing externally funded projects, in-house R&D projects, and institute innovation council.

1. OFFICE OF DEAN - RESEARCH & INNOVATION ROLES & RESPONSIBILITIES

Dean - Research & Innovation (R&I)

- The Dean of R&I plays a very important role as a strategic leader for the institution's Research, Development and Innovation activities at MCET.

Responsibilities:

- To prepare an annual budget with an activity planner pertaining to research and innovation
- To formulate policies for the conduct of research and steps to maintain suitable standards.
- To create and maintain a database regarding faculty expertise in research and innovation areas.
- To encourage, mentor, and guide faculties in their research activities and publications.
- To plan the infrastructure and equipment required to conduct research or consultancy work.
- To provide leadership and guidance in identifying external funding for research projects and submitting proposals to secure funds for research.
- To provide leadership and support to the Institution Innovation Council
- To develop innovative designs primarily on market demand with low-cost solutions and to nurture and advance the culture of design and innovation to attract and benefit end users.
- To ensure on-time registration of patents and IPRs for the research and innovations of MCET.
- To create and maintain relevant records of research and innovations done.

अज्ञानमोक्षं

Institute Level R&I Coordinators

Intellectual Property Rights (IPR) Coordinator

Responsibilities:

- Facilitating faculty members and departments in obtaining patents, copyrights, designs, trademarks, and layout designs of integrated circuits.
- Coordinating with faculty members to identify potential inventions with the help of external experts.
- Supporting faculty members in IPR drafting with the help of in-house expertise and external patent agents
- Facilitating the conversion of quality student projects into patents.
- Identifying patents that have potential for technology commercialization.
- Ensuring the timely submission of the first examination report.
- Organizing training programs and workshops for faculty members related to patent drafting, filing, the first examination report, and other IPR activities.
- Following up on department targets and identifying gaps.
- Regularly updating and maintaining databases for IPR details and updating them on the R&I webpage.
- Monitoring the budget and maintaining expenses related to IPR.
- Verifying incentive claims and ensuring that the required processes are appropriately followed.
- Providing data as required by ranking institutions and statutory bodies, such as NIRF, NAAC, UGC, AICTE, etc., in the appropriate format.

Research Publications Coordinator

Responsibilities:

- Identifying calls for book chapters, conference papers, papers in special issues of journals, and in indexed publications, periodically and preparing the data to circulate to the departments.
- Identifying delisted journals (fake journal identification) and circulating the information.
- Facilitating the faculty members to find the similarity of articles by using plagiarism checker tools.

अज्ञानमोक्ष

- Ensuring the inclusion of other MCET author-published articles in the references for the new submissions.
- Monitoring and ensuring the latest updates to the publication details on the institution's, departments', and faculty members' IRINS, Scopus, Google Scholar, ResearchGate, and other scholarly index pages.
- Organizing training programs and workshops for faculty members related to publications.
- Regularly maintaining databases of paper publication details and updating them on the R&I webpage.
- Verifying incentive claims and ensuring that the required processes are appropriately followed.
- Following up on department targets and identifying gaps.
- Providing data as required by ranking institutions and statutory bodies, such as NIRF, NAAC, UGC, AICTE, etc., in the appropriate format.

Consultancy Works Coordinator

Responsibilities:

- Facilitating the departments in identification of consultancy work's requirements from industries.
- Benchmarking the consultancy work from MCET at the level of top NIRF-ranked institutions.
- Facilitating infrastructure requirements to carry out quality consultancy work.
- Coordinating onsite visits to industries related to consultancies.
- Collecting the final closure report, invoices, purchase orders, and other documents related to consultancy work.
- Regularly maintaining databases for consultancy details and updating them on the R&I webpage.
- Verifying incentive claims and ensuring that the required processes are appropriately followed.
- Monitoring the progress of ongoing consultancy work.
- Following up on department targets and identifying gaps.
- Providing data as required by ranking institutions and statutory bodies, such as NIRF, NAAC, UGC, AICTE, etc., in the appropriate format.

अभिलेख
अभिलेख

External Funded and In-house R&D Projects Coordinator

Responsibilities:

- Identifying funding opportunities from external sources, such as government and non-governmental agencies, periodically preparing the data, and facilitating the circulation of the same to departments.
- Benchmarking the research grant submissions from MCET at the level of the top NIRF-ranked institutions.
- Coordinating the review of funded project proposals with the help of external experts to ensure potential submissions.
- Monitoring the status of submitted proposals for external funding.
- Following up on rejected proposals from departments for quality resubmission.
- Periodic monitoring of the progress of the ongoing external funding.
- Facilitating onsite visits as and when needed for the submitted proposals.
- Monitoring the timely submission of the Utilization Certificate (UC) and final technical report.
- Facilitating the management contribution of expenses over and above the research grant received from external funding agencies.
- Organizing training programs and workshops for faculty members related to funding schemes and grant writing.
- Verifying incentive claims and ensuring that the required processes are appropriately followed.
- Following up on department targets and identifying gaps.
- Coordinating the required process for the release of seed money to in-house R&D for both faculty members and students.
- Periodic monitoring of the progress of the ongoing in-house projects.
- Organizing open house project exhibitions once per semester for internal students and once per year for students from schools and other institutions.
- Regularly maintaining databases related to in-house projects & external funding and updating them on the R&I webpage.
- Providing data as required by ranking institutions and statutory bodies, such as NIRF, NAAC, UGC, AICTE, etc., in the appropriate format.

अज्ञानमोक्ष

Ph.D. Course-work and R&I Budget Coordinator

Responsibilities:

- Facilitating part-time and full-time Ph.D. admission processes at Anna University, Bharathiar University, and centrally funded institutions.
- Monitoring the Ph.D. admission status in approved Ph.D. research centres.
- Collecting coursework registration forms from Ph.D. scholars and submitting them to the exam cell.
- Consolidating CCET marks and internal marks and submitting them to the exam cell.
- Regularly maintaining databases for Ph.D. coursework and Ph.D. supervisor details and updating them on the R&I webpage.
- Consolidating the R&I yearly budget proposal from departments.
- Periodically following RI budget utilization of departments.
- Providing data as required by ranking institutions and statutory bodies, such as NIRF, NAAC, UGC, AICTE, etc., in the appropriate format.

R&I Information Coordination Team

Responsibilities:

- Collecting and formatting data for the R&I Newsletter and ensuring the release of four issues per year.
- Collecting and maintaining monthly RI dashboard data.
- Preparing minutes of meetings conducted in relation to research activities.
- Coordinating attendance, e-certificate distribution, report preparation, and other activities related to knowledge sharing sessions.
- Regularly maintaining databases for R&I activities and updating them on the R&I webpage.
- Providing data as required by ranking institutions and statutory bodies, such as NIRF, NAAC, UGC, AICTE, etc., in the appropriate format.

अज्ञानमोक्षं हि

2. RESEARCH PROMOTION POLICY

Preamble:

MCET aims to promote research excellence and serving the society by offering dynamic higher education ecosystem with a focus on research, innovation, and technology development which can address the societal concerns facing our nation. MCET establishes an open forum to promote academic achievement and engage in intellectual research for both faculty members and students. R & I activities take place in order to enhance knowledge that paves the way for new research & advancement, and to have industrial collaboration.

The Research and Development cell is coordinating research and innovation activities of the institution, guided by the Research Advisory Committee which is directed by the Dean of Research & Innovation and headed by the Principal. The RDC is responsible to formulate various processes, procedures, and methodologies for research and innovation activities along with R & I coordinators from various departments.

Academic Research:

- All the faculty members are encouraged to conduct research in emerging areas as well as interdisciplinary areas.
- Faculty research articles that are indexed by Q1/ Web of Science (SCIE) /Scopus are awarded with monetary incentives.
- Faculty members attending reputable conferences and workshops will receive financial support.
- Ph.D. scholars will be provided with on duty leave.
- Faculty with Ph.D. should publish three articles in Q1/SCIE publications per year, faculty working towards Ph.D. should publish three articles in Q1/SCIE/Scopus publications per year, and faculty with master's degrees should publish three article in SCIE/Scopus-indexed Scopus-indexed conference per year.

अज्ञानमोक्षं

- The UG and PG projects are primarily focused on research and that should be published either in the SCIE/Scopus/UGC care journals or Scopus-indexed conferences.
- Ph.D. holders working in MCET should have supervisor recognition from the university. Faculty members holding Ph.D. can submit a request letter for supervisor recognition to the Principal through HoD concern and Dean R&I.
- A Ph.D. supervisor working in MCET before inducting Full/Part-time Ph.D. candidates must get the approval from Principal through HoD concern and Dean R&I.
- Faculty members working in MCET, after 1 year of service in MCET should register for Ph.D.
- External candidates applying for Ph.D. in MCET should have a minimum of one year of teaching experience.
- Faculty members working in MCET are encouraged to do full-time Ph.D. in centrally funded institutions (like IITs, NITs) and top NIRF-ranked institutions. For those candidates, partial financial assistance and leave will be provided.
- The faculty members after one year of minimum service in MCET can be recommended by the HoDs concerned to do a Ph.D. without affecting the regular Teaching-Learning process. In addition to that HoDs concern should make sure the required support to take up course works and conduct research is provided to the candidates.
- External and internal candidates satisfying the above-mentioned criteria should submit the filled-in request form available in the Dean R&I to the principal of MCET. The candidates should make a request to the Principal through HoD concern, Ph.D. supervisor, and Dean R&I for getting a No objection certificate.
- Faculty members newly joined in MCET, with already ongoing Ph.D. registration should submit a request for a No objection certificate along with evidence of Ph.D. registration and

27/08/2025
अनंत म. शर्मा

- In case there is a cancellation/re-registration, proper approval shall be obtained from the Principal through HoD concern and Dean R&I.
- Ph.D. scholars should submit a progress report every semester in the prescribed format to the Dean R&I, duly forwarded by Ph.D. supervisor and HoDs concern.
- After the successful completion of Ph.D. viva-voce, the scholars should submit the Ph.D. thesis to the central library through the Dean R&I office.

External Funded Projects/In-house R&D:

- The institution provides SEED money for in-house R&D projects to all potential faculty members and students. The minimum SEED money provided will be 1 lakh rupees per project.

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/08/2025

- In-house Funding Scheme is provided in order to promote research and innovation among the faculty members and students in the campus. The objective of the scheme is to accelerate the prospect to receive financial support from Government/Non-Governmental Agencies in the future.
- Under this scheme students and faculty members shall apply for the funding with an idea and neat description of their work. After scrutinizing the proposal, financial support will be provided.
- A copy of proposals complete in all aspects is to be submitted through the proper channel to the office of Dean of Research & Innovation.
- Preference will be given to proposals that have a high potential for external funding and to strengthen inter-disciplinary research partnerships.

Consultancy:

- Faculty members of MCET can approach industries to carry out consultancy and testing services to industry and external agencies.
- Institute will provide necessary support such as required space, facilities, and reduced workload to the faculty members.

अज्ञानमोक्ष

Table 2.1 Norms for sharing of Consultancy Revenue

Net revenue received for consultancy	Institution resources are utilized	60:40 ratio 60% to the institution 40% as an incentive
	Institution resources are not utilized	40:60 ratio 40% to the institution 60% as an incentive
Norms for distribution of Incentive		
Faculty team members handling the consultancy		75%
Department supporting staff involved in the consultancy work		15%
MCET Office, Central Office and HR Office		10%

- Revenue generated from consultancy will be shared as per the above table.

Intellectual Property Rights (IPR):

RDC IPR wing facilitates faculty members in drafting and filing of patents. The major functions of IPR cell are given below but not limited to:

- RDC has an IPR wing to create awareness about technology commercialization and Patenting among students and faculty members and also provide support for IPR filing in Indian Patent Office.
- MCET- IPR wing of RDC has signed a Memorandum of Agreement (MoA) with National Research Development Corporation (NRDC).

अज्ञानमोक्ष

- Potential inventions from faculty members and UG and PG projects having novelty, inventive steps and industrial applicability can be patented by submitting the details to Indian Patent Office. The following services are provided by the RDC-IPR wing to faculty and students:

- Knowledge support for the conversion of innovative ideas and projects into patents.
- Funding support for patent search, drafting and patent filing will be provided by institution.
- Guidance and funding support for technology transfer and commercialization of innovative technologies.
- Support for patent renewal, response for examination report, and legal dispute if any.

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/08/2025

➤ The Objectives of the IPR wing of RDC are as follows:

- Organizing workshop/guest lecture on technology commercialization and patenting.
- To set targets to stream-wise and conduct periodical review meetings.
- Helping the identified projects to get technology Commercialization and Patenting
- Motivating faculty members to file copyright for their teaching materials, lab manuals, etc.

- The Monitoring policy of the IPR wing of RDC is as follows:

- Impact assessment of the Institute's IPR initiatives should be performed regularly using well- defined evaluation parameters such as the number of workshops, conferences conducted, and IPR policy / review committee meetings both at department and institute levels.
- The number of patents filed, published, and granted, the support system provided at the institutional level and satisfaction of inventors, and new commercialization created by the institute should be recorded.

Faculty members are appreciated with monetary incentives when patents are granted.

अभिलेख
अभिलेख

Ethics and Plagiarism:

Ethics and Plagiarism Committee supports faculty members by providing tools to check for similarity. The major functions of ethics and plagiarism committee are given below but not limited to:

- Approval of research projects that involve human participants or personal information.
- Provide suggestions and advice on any research-related ethical concerns.
- Ensure that the institution complies with all statutory and regulatory requirements regarding its adherence to ethical, legal, and professional commitments and standards.
- To provide guidance to the Principal on concerns pertaining to integrity in research and ethical issues.

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/08/2025

- Regular RDC initiatives will make sure that researchers are aware of the value of integrity and ethics and that they adhere to ethical standards for research and publication methods at

the institutional, national, and international levels.

- All researchers should have access to the necessary tools in order to do a standard plagiarism check, which should be made mandatory.
- Faculty members shall utilize research software tools such as Turnitin and Urkund for similarity checking of research articles/student project reports.
- Furthermore, the RDC will educate the research community about questionable research and publishing procedures, as well as predatory journals.
- Research articles and grant proposals shall have a 10% similarity or publisher/Grant agency similarity limit (whichever is minimum).
- In UG and PG project reports, the minimum allowable similarity is 15% and 20% respectively.
- In case of any faculty member/scholars/students who have committed the act of plagiarism in their thesis/project report/journal publication/grant proposal/any other research writing, appropriate action will be taken against them as per the guidelines of the University/UGC/Publisher/Funding Agency/any other competing authority.

3. RESEARCH INITIATIVES

A. FACULTY & SCHOLAR DEVELOPMENT

- 3.1 Expanding Research Scholar Enrolment
- 3.2 Launching Research Faculty Scheme
- 3.3 Introducing Full-Time Research Scholars(FTRS) and Teaching Research Faculty(TRF)
- 3.4 Conducting Knowledge Sharing Sessions (KSS) & Organizing Research Seminars
- 3.5 Facilitating Student Participation in Seminars & Workshops
- 3.6 Facilitating Faculty for Online NPTEL - Swayam Certifications
- 3.7 Facilitating Faculty to attend Faculty Development Programmes
- 3.8 Facilitating faculty to become authorized expert by Govt. agencies to carryout Consultancy Works
- 3.9 Rewarding Faculty for Research Contributions
- 3.10 Purchasing R&I Tools for Plagiarism & Grammar Checking
- 3.11 Facilitating Subscriptions for Printed & E-Journals

B. RESEARCH REVIEW & MONITORING

- 3.12 Periodic Review of Departments' R & I Activities
- 3.13 Periodic Review of Ph.D. Scholars' Progress
- 3.14 Periodic Review of Ongoing External & In-house Funded Projects and Consultancy Works
- 3.15 Convening Meetings, Controlling & Monitoring NIRF Data Analysis

C. RESEARCH INCENTIVES & SUPPORT

- 3.16 Coordinating Cash Incentive Distribution to faculty members for Research Contributions
- 3.17 Providing support for availing the Research Contingency Grant (RCG)
- 3.18 Developing In-house talent pool, providing Technical & Financial support for IPR Management
- 3.19 Identifying & Sanctioning In-house R&D Projects for Faculty members and Students
- 3.20 Facilitating Revenue Sharing for Consultancy Works

D. RESEARCH & COLLABORATION GROUPS

- 3.21 Establishing Student Research Council (SRC)
- 3.22 Establishing Research Interest Groups (RIG)
- 3.23 Establishing Tech Express Circle (TEC)
- 3.24 Managing Institution's Innovation Council (IIC)

E. RESEARCH COMMUNICATION & PUBLICATION

- 3.25 Publishing Bi-monthly MCET Research Dashboard
- 3.26 Updating Research information periodically in institution webpage
- 3.27 Publishing R&I Newsletter
- 3.28 Circulating Call for Proposals for external grants
- 3.29 Publishing Research Process Handbooks
- 3.30 Developing process flows, templates and forms for various R&I activities
- 3.31 Maintaining and Updating IRINS Profile
- 3.32 Submitting Annual reports for RIG, SRC, KSS and Annual report of R&I activities

(Signature)
अनंता मणि पंडित

A. FACULTY & SCHOLAR DEVELOPMENT

3.1 Expanding Research Scholar Enrolment

To facilitate research scholar enrolment, faculty members are encouraged to pursue Ph.D. programs. During departmental review meetings, the importance of Ph.D. enrolment is emphasized by highlighting its role in academic growth, research excellence, and career advancement. Faculty members are informed about the benefits of obtaining a doctoral degree, such as enhanced teaching capabilities, research funding opportunities, and eligibility for supervisory roles. Congratulatory creatives will be developed, for the scholars who got Ph.D.

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/08/2025

With a steady increase in completed, ongoing, and newly registered scholars, this initiative strengthens the research ecosystem by enhancing scholar participation and improving research output. The Ph.D. process at MCET begins with the University Ph.D. admission notice, followed by application submission. Upon acceptance, candidates receive provisional registration and enroll in coursework. After completing coursework and obtaining confirmation, they submit half-yearly progress reports and presentations.

Next, candidates submit their synopsis and continue research, Once research is complete, they submit the thesis. The university then processes the evaluation, leading to viva-voce notification. If successful, the candidate is awarded the provisional and degree certificates. Key submissions include various forms, seminar presentations, and no dues clearance.

अज्ञानमोक्षं
अज्ञानमोक्षं

3.2 Launching Research Faculty Scheme

The Launching Research Faculty Scheme aims to strengthen institutional research capabilities by recruiting distinguished professionals through structured selection, evaluation, and retention processes. Assistant Professor (Research), Associate Professor (Research), and Professor (Research) appointments begin with a two-year probationary period to assess suitability for tenure-track positions. Successful faculty continue in their roles, while those not transitioned receive a one-year grace period followed by reassessment for academic migration. Performance is monitored through monthly reviews, annual appraisals, and merit evaluations.

To ensure continuity, unexpected tenure termination mandates completion of ongoing research with institutional affiliation. A surety bond ensures ownership of patents, funded projects, consultancy works, and publications, secured by post-dated cheques worth three months' gross salary. This policy upholds institutional recognition and research integrity. The policy document of Research Faculty is provided below:

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/08/2025

3.2.1 Policy Document for Assistant Professor (Research), Associate Professor (Research) and Professor (Research)

Job Position: Assistant Professor (Research) / Associate Professor (Research) / Professor (Research)

Discipline: Core/Circuit/IT Stream/Science & Humanities

Qualification: Ph.D. in Engineering/Science and Humanities- Maths, Physics, Chemistry

Attractive salary will be provided

Appointment Structure:

Assistant Professor (Research), Associate Professor (Research) and Professor (Research) appointments are initially established for a two-year probationary period. The goal is to assess the individual's suitability for a tenure-track position. Upon successful fulfilment of the probationary requirements, the faculty member will persist in their role as Assistant Professor (Research) / Associate Professor (Research) / Professor (Research). If not transitioned to tenure-track within the initial two years, one more year of grace period will be given, and a re-assessment will be conducted to assess suitability for academic faculty migration. Monitoring mechanisms of periodical monthly progress reviews, annual appraisals and merit reviews over a two-year period will be conducted.

When a research faculty member's tenure unexpectedly terminates, it's important to ensure that work-in-progress submissions are completed with the college's affiliation for ongoing projects, works, patent submissions, and research publications.

अज्ञानमोक्ष

A Surety bond with the commitment that the institution retains ownership for patents, funded projects, consultancy works and publications with institution affiliation and post-dated cheques, totalling three months' gross salary, are to be provided for the surety bond. This ensures that the institution retains ownership and recognition for the intellectual property and scholarly contributions resulting from the research to ensure clarity and transparency regarding affiliations.

Qualification:

Faculty of Engineering - Assistant Professor (Research):

Ph.D. in the respective field of specialization from a reputed university with 3 years of teaching/research/industry experience after M.E/M.Tech. Faculty should have a good research track record and a minimum Scopus h-index of 3.

Pay Band of Assistant Professor (SG): Rs.15600-39100+AGP 8000

Pay Band of Assistant Professor (Research): Pay Band of Assistant Professor (SG) + Variable Research Allowance* of Rs. 10,000 – Rs. 15,000 per month.

Faculty of Engineering - Associate Professor (Research):

Ph.D. degree in the relevant field and a first class at B.E/B.Tech. & M.E/M.Tech. in the relevant branch. A minimum of 8 years of experience in teaching/research/industry out of which at least 2 years shall be at a post - Ph.D. experience. Faculty should have a good research track record and a minimum Scopus h-index of 8.

Pay Band of Associate Professor: Rs.37400-67000+AGP 9000

Pay Band of Associate Professor (Research): Pay Band of Associate Professor + Variable Research Allowance* of Rs. 15,000 – Rs. 20,000 per month.

Faculty of Engineering - Professor (Research):

Ph.D. degree in a relevant field and a first class at B.E/B.Tech. & M.E/M.Tech. in the relevant branch. A minimum of 10 years of experience in teaching/research/industry out of which at least 3 years shall be at a post equivalent to that of an Associate Professor. Faculty should have a good research track record and a minimum Scopus h-index of 12.

Pay Band of Professor: Rs.37400-67000+AGP 10000.

Pay Band of Professor (Research): Pay Band of Professor + Variable Research Allowance* of Rs. 20,000 – Rs. 25,000 per month.

अज्ञानमोक्ष

Faculty of Science & Humanities - Assistant Professor (Research):

Ph.D. in the respective field of specialization from a reputed university with 3 years of teaching/research/industry experience after M.Sc./MCA. Faculty should have a good research track record and a minimum Scopus h-index of 3.

Pay Band of Assistant Professor (SS): Rs.15600-39100+AGP 7000.

Pay Band of Assistant Professor (Research): Pay Band of Assistant Professor (SS) + Variable Research Allowance* of Rs. 5,000 – Rs. 10,000 per month.

Faculty of Science & Humanities - Associate Professor (Research):

A first-class M.Sc. / MCA degree and a Ph.D. in a relevant field of study from reputed universities are essential. A total of 12 years of teaching/industry experience after M.Sc./MCA degree out of which at least 2 years shall be at a post - Ph.D. experience. Faculty should have good research track record and a minimum Scopus h-index of 8.

Pay Band of Associate Professor: Rs.37400-67000+AGP 9000.

Pay Band of Associate Professor (Research): Pay Band of Associate Professor + Variable Research Allowance* of Rs. 10,000 – Rs. 15,000 per month.

Faculty of Science & Humanities – Professor (Research):

A first-class M.Sc. / MCA degree and a Ph.D. in a relevant field of study from reputed universities are essential. A total of 15 years of teaching/industry experience after an M.Sc./MCA degree out of which at least 3 years shall be at a post equivalent to that of an Associate Professor. Faculty should have a good research track record and a minimum Scopus h-index of 12.

Pay Band of Professor: Rs.37400-67000+AGP 10000

Pay Band of Professor (Research): Pay Band of Professor + Variable Research Allowance* of Rs. 15,000 – Rs. 20,000 per month.

*The variations in research allowance for the research faculty members will be based on the publication track records, Scopus h-index and previous research contributions.

Job Description:

As an Assistant Professor (Research) / Associate Professor (Research) / Professor (Research), the primary responsibility will be to conduct innovative research, publish scholarly works, pursue patents, secure external funding and perform consultancy works, in the area of their expertise as

अनुसंधान

Research points for Assistant Professor (Research) / Associate Professor(Research) / Professor(Research):

Table 3.2.1 Research points

S.No.	Category	Research Points per contribution
1.	Publication in Q1 Journal	100
2.	Publication in SCIE Journal	60
3.	Publication in Scopus indexed Journal	40
4.	Publication in IEEE, Elsevier, ACM & international conferences indexed in Scopus/UGC Care journals/indexed book chapters from reputed publishers	20
5.	Book published in reputed National or International Publisher with ISSN No.	50
6.	Consultancy and Funded Project: Sanctioned and Received Amount (for every 1 Lakh) (Executive Training programmes and testing charges will not be considered)	10
7.	Patent Filing	20
8.	Design Filing	15
9.	Copyright Filing	10
10.	Patent Grant	100
11.	Design Grant	30
12.	Copyright Grant	20

Guidelines:

- Assistant Professor(Research) / Associate Professor(Research) / Professor(Research) should strongly be within the first 2 author positions for Research Publications and the first 2 inventors for patents. However, if the research faculty is the 2nd author or 2nd inventor for publication or patent, then the first author should be from industries or reputed institutions from abroad, top NIRF- ranked government and government- aided institutions or his/her own Ph.D. scholars.

अज्ञानमोक्ष

Assistant Professor (Research) / Associate Professor (Research) / Professor (Research) should strongly be the Principal Investigator for funded projects and the primary consultant for consultancy works.

- Scores of research faculty will not be divided if co-authors are from industries or reputed institutions from abroad, top NIRF- ranked government and government- aided institutions or their own Ph.D. scholars.
- The Score of the research faculty will be divided by the number of co-authors from MCET and authors from other private institutions.
- Article processing charges, registration fee, open access fee, testing charges, any other expenses, etc., are to be covered by research faculty either through ongoing funded project/consultancy and international & national collaborations.

Salient features

- Full-time research role
- No teaching task
- No administrative duty
- Flexible working time
- Assured renewal upon target achievement
- Incentives for exceeding targets
- Gratuity Scheme
- Benefits of EPF
- Staff personal safety and health insurance
- Staff Family Benefit Fund
- Thrift Society
- Casual leave entitlement
- Medical leave entitlement
- Earned leave encashment
- Vacation entitlement
- Other service benefits at par with the existing faculty member of the institution.

3.3 Introducing Full-Time Research Scholars (FTRS) and Teaching Research Faculty (TRF)

The following guidelines are provided for Full-Time Research Scholars (FTRS) and Teaching Research Faculty (TRF).

Table 3.3.1 Guidelines for FTRS and TRF

S. No	Category	Financial Support	Role	Eligibility
1	Full Time Research Scholars (FTRS) with Teaching Research Assistantship.	After provisional registration of confirmation (Course work Completion) the Stipend will be given. First Year – Rs. 20,000 Second Year – Rs. 25,000	Full Time Ph.D. & Part Time Teaching. No Admin Responsibilities.	Candidates need to register for Full Time Ph.D.
2	Full Time Research Scholars (FTRS) without Teaching Research Assistantship.	Not Applicable	Full Time Ph.D. & Part Time Teaching. No Admin Responsibilities.	Candidates need to register for Full Time Ph.D.
3	Teaching Research Faculty (TRF) with Ph.D.	Present salary and service conditions remain unchanged.	Full Time Research & Part Time Teaching. No Admin Responsibilities.	Faculty members upto AP (SG) level with Ph.D. can be converted as TRF.
4	Teaching Research Faculty (TRF) Pursuing Ph.D.	Present salary and service conditions remain unchanged.	Full Time Ph.D. & Part Time Teaching. No Admin Responsibilities.	Faculty members pursuing Ph.D. should convert to Full-Time research scholars.

Expected Benefits:

1. Increase the contribution to research output and publications, enhancing the institution's academic reputation and improvement in NIRF Rankings.
2. With moderate teaching workload (10 to 14 hours per week) can be helpful to minimize the Department Faculty workload.
3. Full-Time Research Scholars (FTRS) without Teaching Research Assistantship scheme will increase research output without additional financial burden on the college.
4. Long-term increase in the number of Ph.D. qualified faculty, enhancing accreditation scores.

3.4 conducting Knowledge Sharing Sessions (KSS) & organizing research seminars

In order to motivate the faculty members and improve the Research culture in MCET, “R&I knowledge sharing sessions” were conducted. These sessions will be handled by and for faculty members of MCET.

Organizing Knowledge Sharing Sessions (KSS) and Research Seminars provides valuable opportunities for learning, facilitates networking, and helps researchers stay updated on industry trends. Inviting external experts to speak on topics such as research publication strategies, securing funded projects, patenting innovations, and utilizing research tools enhances knowledge and fosters innovation.

Knowledge Sharing Sessions were conducted as mentioned below (but are not limited to).

General Topics: Manuscript writing, Finding the right journal, going through peer review, how to review the journal paper, Research ethics, Grant writing, Research metrics, Creating and managing author profile, Patent writing, Handling first examination report of patent, etc.

Emerging Technologies (Example in IT Stream): Block Chain, AI, ML, IOT, ARVR, Cloud Computing, Cyber Security, etc and similarly for other streams.

Research Tool Demonstration (Example in IT Stream): Matlab, Weka, NS2, OpenCV, R, Python packages, Tensor flow, etc and similarly for other streams.

3.5 Facilitating Student Participation in Competitions, Seminars & Workshops

Facilitating student participation in seminars, hackathons, conferences, and workshops plays a crucial role in enhancing their engagement, exposure, and skill development. Actively involving students in such events helps them gain practical experience, build professional networks, and stay updated with emerging trends in their field. Recognizing their achievements through congratulatory posters, social media announcements, and institutional newsletters not only celebrates their success but also fosters a culture of inspiration and healthy competition among peers. This approach brings confidence, encourages students to take on new challenges, and motivates them to actively participate in future technical events, ultimately driving both personal growth and the collective progress of the institution. Following are the guidelines and forms for students competitive events.

3.5.1 Guidelines for financial assistance to student's participation - Competitive Events & Co-curricular Activities

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/09/2025

It is informed that, to standardize the procedure for financial assistance to the students for participation in Competitive Events & Co-curricular activities has been developed for two categories namely: (A. Participation in top 100 NIRF-ranked academic institutions, B. State/National level participation in professional bodies & International level participation in academic institutions/industries). A committee will be constituted by the Head of the Institution to recommend financial assistance upto 50% of the expenses. Students can submit Form-1 to receive 15% of approved expenses as advance and after successfully winning prizes in the events, they can submit Form-2 to reimburse remaining 35% of the approved expenses.

1. The request from students to participate in events will be reviewed by the committee constituted by the principal and the committee will submit the recommendation for financial support.
2. Students attending competitions should obtain prior approval from the committee, at least 7 working days before submitting their proposal.
3. Students are not permitted for participation in competitive events during semester exams.
4. Institution sponsorship will be provided for competitive events only.
5. Financial support will be limited after two years of continuous participation, without winning prizes.
6. Principal approval is needed for external sponsorship. Funds should not be collected as cash but should be transferred directly to the institution's official account. Sponsorships are entirely voluntary; there is no compulsion to provide sponsorship. Do not approach vendors or suppliers for sponsorship. The website should clearly acknowledge how much was sponsored and who provided the funds.
7. On-duty will be provided for participation in competitive events for the students and accompanying faculty members, and on-duty for preparation of competitive events will be handled by their respective departments.

Travel allowance for students is subject to the following instructions to be followed:

(Signature)
अनामिका शर्मा

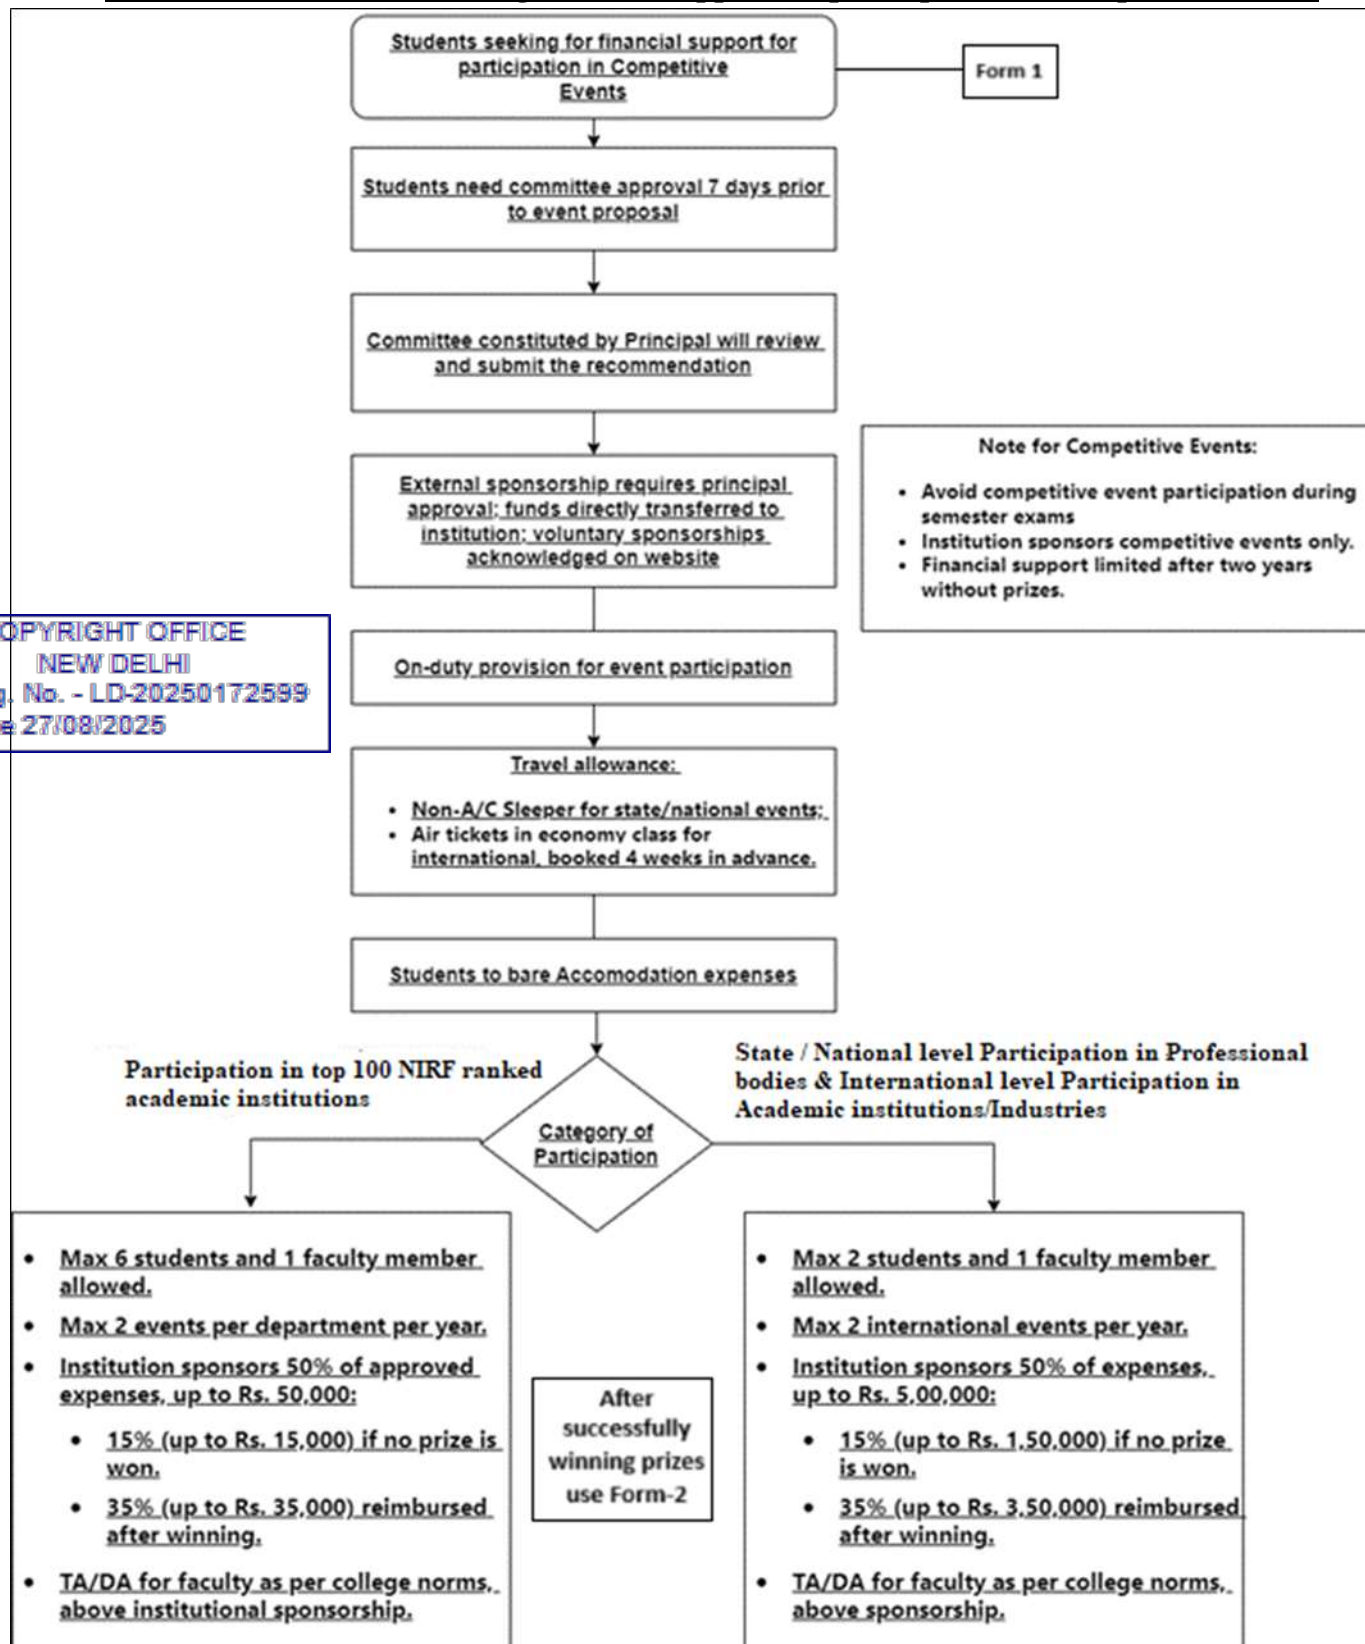

- a) Travel to be booked in Non-A/C Sleeper class in train or bus for State/National level participation.
 - b) For international level participation, Air tickets must be booked in economy class, and bookings should be made at least 4 weeks in advance.
9. Accommodation expenses to be bared by the students.

Category of Participation	Instructions
<p>A. Participation in top 100 NIRF-ranked academic institutions</p>	<ul style="list-style-type: none"> Maximum of 6 students and 1 accommodating faculty member will be allowed. Maximum of 2 events per department only allowed in a year. Total institutional sponsorship is 50% of approved expenses, limited to Rs. 50,000/- (including students' travelling allowances and other expenditures), and is distributed as follows: <ul style="list-style-type: none"> - 15% of approved expenses, limited to Rs. 15,000/-, will be provided if no prize is won in the final round. - The remaining 35% of approved expenses, limited to Rs. 35,000/-, can be reimbursed only after winning in the events. TA/DA will be provided for faculty member as per the college norms and cadre, which is over and above the institutional sponsorship.
<p>B. State / National level Participation in Professional bodies & International level Participation in Academic institutions/Industries</p>	<ul style="list-style-type: none"> Maximum of 2 students and 1 accommodating faculty member will be allowed. Maximum of 2 international events per year by the college. Total institutional sponsorship is 50% of approved expenses, limited to Rs. 5,00,000/- (including students' travelling allowances and other expenditures), and is distributed as follows: <ul style="list-style-type: none"> - 15% of approved expenses, limited to Rs. 1,50,000/-, will be provided if no prize is won in the final round. - The remaining 35% of approved expenses, limited to Rs. 3,50,000/-, can be reimbursed only after winning in the events. TA/DA will be provided for faculty member as per the college norms and cadre, which is over and above the institutional sponsorship.

3.6 Facilitating Faculty For Online NPTEL - Swayam Certifications

Facilitating faculty participation in online NPTEL-Swayam certifications provides a valuable platform for enhancing research knowledge and skills in innovation and design. Reimbursement will be provided for faculty successfully clearing NPTEL courses, further encouraging participation.

Congratulatory posters are designed to honor the achievements of faculty members, highlighting their hard work and success. These vibrant displays not only celebrate their accomplishments but also inspire others to pursue excellence and follow in their footsteps.

Courses such as Innovation by Design, Design, Technology and Innovation, and Effective Writing for critical thinking and creativity. Additionally, modules like Introduction to Research/Research Methodology and Patent Search for Engineers and Lawyers provide essential tools for academic and industrial research.

The course, Introduction on Intellectual Property to Engineers and Technologists empowers engineers and technologists to navigate patent creation and protection. The Roadmap for Patent Creation and Patent Drafting for Beginners further build foundational expertise for aspiring innovators. By recognizing their contributions, the posters create a positive, motivating environment that encourages further growth and participation.

3.7 Facilitating Faculty to attend Faculty Development Programmes

Supporting faculty participation in development programs from reputed institutions enhances professional growth and academic excellence. The process begins with identifying relevant programs that align with faculty members' expertise and institutional goals. Faculty members are encouraged to apply for these programs through institutional support, which may include financial assistance, leave approvals, or mentorship.

Once enrolled, faculty engage in high-quality training that helps them refine teaching methodologies, expand research expertise, and stay updated with emerging trends. These programs also promote innovative teaching strategies, improving student learning experiences. Additionally, networking opportunities foster collaboration, enabling faculty to exchange ideas and initiate interdisciplinary research.

After completing the program, faculty members share their insights through knowledge-sharing sessions, workshops, or curriculum enhancements, ensuring the acquired expertise benefits the institution as a whole.

3.8 Facilitating Faculty to become Authorized Expert by Govt. Agencies to carryout Consultancy Works

Facilitating faculty to become authorized experts through government certifications, such as the Indian Patent Agent Examination or the Energy Manager Certification Examination, enhances their professional credentials and consultancy capabilities. The process begins with identifying faculty members interested in such certifications and providing institutional support through financial assistance, study materials, and guidance.

To aid in preparation, coaching sessions are organized by inviting external experts with extensive knowledge in the respective domains. These sessions equip faculty with the necessary skills and insights required to excel in the examinations. Additionally, peer discussions and mock tests are conducted to reinforce learning and boost confidence.

Upon certification, faculty members can offer specialized consultancy services, contributing to both academic research and industry advancements. They can guide students, collaborate on government and corporate projects, and play a crucial role in knowledge transfer. By supporting

achieving these credentials, institutions strengthen their academic reputation and create for innovation and industry engagement.

अज्ञानमोक्ष

3.9 Rewarding Faculty for Research Contributions

Recognizing and rewarding faculty for their research contributions in areas such as publications, patents, consultancy, Ph.D. completion, Ph.D. supervision, and securing external funding fosters a culture of academic excellence. The process begins with tracking faculty achievements through a structured evaluation system, ensuring that their contributions are acknowledged in a transparent and timely manner.

Faculty members who excel in research and innovation are honored through appreciation posters that highlight their accomplishments, serving as motivation for their peers and students. Additionally, periodic incentives, such as financial rewards, grants, or professional development opportunities, are provided to further encourage their efforts. Institutions may also organize recognition events, where faculty members are formally acknowledged for their contributions, providing a sense of achievement and pride.

Beyond individual recognition, this initiative strengthens the institution's research ecosystem by inspiring continued innovation and collaboration. Encouraging faculty to engage in high-impact research not only enhances institutional rankings but also contributes to industry partnerships and societal advancements. By consistently supporting and rewarding research excellence, institutions cultivate an environment where faculty members remain motivated to push the boundaries of knowledge and academic growth.

3.10 Purchasing R&I Tools for Plagiarism & Grammar Checking

Turnitin Campus Access software, Quillbot Premium, Canva Premium, and Grammarly Premium—are provided to faculty members to enhance their research contributions. Turnitin ensures originality in academic work, Quillbot aids in refining ideas and improving clarity, Canva enables visually impactful presentations and publications, while Grammarly ensures error-free and polished writing. It is mandatory in central library, Dean RI office and departments to maintain the usage register using the below template and we request the HoDs/in-charges to monitor and sign the register in periodic basis.

अज्ञानमोक्ष

Table 3.10.1 Usage Register

S.No.	Name & Designation	Emp. ID/Roll No.	Date	Title of the Document	Type of Document (Journal/Conference/Funding/Patent)	Ver1/Ver2/Ver3 of the Document	Signature of the Faculty/Students

Together, these tools support faculty in producing high-quality, well-crafted research outputs.

3.11 Facilitating Subscriptions for Printed & E-Journals

Facilitating subscriptions for printed and e-journals ensures seamless access to high-quality academic resources, supporting research, learning, and innovation. The process begins with identifying relevant national and international journals and e-databases based on faculty and student requirements. Institutions allocate budgets and collaborate with publishers or digital platforms to secure cost-effective subscriptions.

Once subscribed, access to journals and databases is provided through institutional networks, library portals, or remote login systems, ensuring convenience for users. Faculty and students can utilize these resources to stay updated with the latest advancements, enhancing their research and academic pursuits. Training sessions or orientation programs may be conducted to familiarize users with available resources and search techniques.

By maintaining a well-curated collection of academic materials, institutions strengthen their research ecosystem and support interdisciplinary learning. The availability of both printed and digital formats ensures flexibility, allowing users to engage with scholarly content efficiently. This initiative fosters academic excellence by equipping researchers with reliable and comprehensive information essential for innovation and knowledge development.

B. RESEARCH REVIEW & MONITORING

3.12 Periodic Review of Departments' R & I Activities

Periodic review of departments' Research and Innovation (R&I) activities ensures alignment with strategic goals, identifies areas for improvement, and fosters continuous growth. Department-wise reviews are conducted by the Dean of R&I along with the Department Head and faculty members twice in a semester and four times a year. These reviews help optimize resource allocation, track progress, and enhance collaboration. Faculty members' research details are obtained through the faculty summary template, and review meetings have been conducted as per the scheduled date and time. Department wise detailed minutes of the meeting is prepared and circulated among faculty members of the department concerned. It sets various targets for the faculty members in order to advance their personal and institutional growth. Research contributions are actively monitored during these reviews, promoting accountability and driving departments to meet set targets. A consolidated department review report will be shared with departments for their reference and follow-up. Ultimately, these reviews enable the adoption of best practices, boosting overall R&I performance and impact. The review process templates are provided below:

3.12.1 Department R&I review PPT Template:

**Dr.Mahalingam College of Engineering and Technology
Pollachi.**

3.13 Periodic Review of Ph.D. Scholars' Progress

Periodic Ph.D. Scholars Progress review:

Ph.D Half yearly progress reviews are conducted periodically for MCET ongoing scholars. In the meeting, faculty members will present their PhD progress and will be reviewed by the review committee members. The Review Committee Members includes:

1. Dean R&I
2. HoD of the Scholar
3. Supervisor of the Scholar (if Internal)
4. HoD of the Supervisor (if Internal)

The members of the review committee engaged in discussions with the scholars, assessed their progress in research, addressed concerns raised by the faculty members, and assigned specific tasks to be accomplished over the upcoming six months. The faculty members expressed a favorable response towards the conduct of the half-yearly progress review, as it serves as motivation for active involvement in research activities and for the completion of their research in targeted timeframe.

3.14 Periodic Review of Ongoing External & In-house Funded Projects

- The institution provides SEED money for in-house R&D projects to all potential faculty members and students. The minimum SEED money provided will be 1 lakh rupees per project.
- In-house Funding Scheme is provided in order to promote research and innovation among the faculty members and students in the campus. The objective of the scheme is to accelerate the prospect to receive financial support from Government/Non-Governmental Agencies in the future.
- Under this scheme students and faculty members shall apply for the funding with an idea and neat description of their work. After scrutinizing the proposal, financial support will be provided.
- A copy of proposals complete in all aspects is to be submitted through the proper channel to the office of Dean of Research & Innovation.
- Preference will be given to proposals that have a high potential for external funding and to strengthen inter-disciplinary research partnerships.
- Periodic reviews of ongoing external and in-house funded projects are conducted to assess progress, ensure efficient resource utilization, and align with set objectives. These reviews help identify any challenges, mitigate risks, and ensure projects remain on track to meet deadlines and deliverables.

3.15 Convening Meetings, Controlling & Monitoring NIRF Data Analysis

Regular meetings are scheduled with key stakeholders to review the data collection process, ensure alignment with NIRF guidelines, and address any discrepancies. These meetings facilitate coordination and decision-making to enhance data accuracy and completeness.

A structured control mechanism is implemented to verify the integrity of collected data. This involves cross-checking figures, validating sources, and ensuring consistency across reporting parameters. Any discrepancies identified are promptly

addressed to maintain accuracy.

Data is continuously monitored to ensure timely updates and compliance with NIRF requirements. Periodic checks and internal audits help track progress, resolve emerging issues, and refine the data submission process.

Before submission, a final review is conducted to confirm accuracy and adherence to guidelines. Necessary revisions are made, and the validated data is submitted within the prescribed timeframe to uphold institutional credibility and ranking performance.

C. RESEARCH INCENTIVES & SUPPORT

3.16 Coordinating Cash Incentive Distribution to faculty members for Research Contributions

Coordinating cash incentives for faculty members recognizes their research contributions, boosting motivation and fostering innovation. These incentives are distributed periodically to acknowledge and reward their ongoing contributions to research. Research incentives are provided for faculty members publishing in quality journals indexed in Scopus, SCIE, and Q1 categories, as well as for securing patents and design grants. Additionally, Research Incentive Awards Ceremonies are conducted periodically to further motivate faculty members and facilitate continued excellence in research. The incentive norms are provided below.

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/08/2025

3.16.1 Incentive Norms

It is informed that, the following incentive norms are revised with effect from 1st January 2025 for various research and innovation activities carried out by the faculty members such as journal paper publications, patents, external research funding, consultancy & online course participation and are given below:

A) Incentive Norms for Paper Publications

Sl. No	Description	Standard Incentive	Enhanced Incentive
1.	Publications of Papers in Scopus Indexed Journals	Rs. 3,000/-	Rs. 6,000/-
2.	Publications of Papers in SCIE Indexed Journals	Rs. 5,000/-	Rs. 10,000/-
3.	Publications of Papers in Top 25 Percentile Journals (Q1)	Rs.7,500/-	Rs.15,000/-
4.	Faculty members who are currently working in MCET who published article with MCET affiliation are only eligible for incentive.		
5.	Revised incentive will be distributed from January 2025 onwards per Calendar Year.		
6.	A faculty member who published more than one paper in a calendar year will receive enhanced incentive as mentioned above. Those who published only one paper in a calendar year will receive standard incentive.		

अज्ञानमो यन्त्रि

7.	<p>Author Positions eligible for incentives:</p> <ul style="list-style-type: none"> • First 6 Author Positions for Q1 Journals • First 5 Author Positions for SCIE Journals • First 4 Author Positions for Scopus Journals <p>Incentive amount mentioned per article will be equally distributed among Maximum of First Three MCET authors, of the above-mentioned positions of Journal articles.</p>
----	--

B) Incentive Norms for IPR

Sl.No	Type of IPR	Description	Incentive Amount
1.	Granted Patent	1. Granted Patent with inventors and all from our institution	Rs.15,000/-
		2. With financial support from our institution	
		1. Granted Patent with inventors and all from our institution	Rs.8,000/-
		2. Without any financial support from our institution	
2.	Granted Design	Granted Patent with inventors limited to first 5 members (including members from other institutions)	Rs.1,000/-
		1. Granted Design with inventors and all from our institution	
		2. Without any financial support from our institution	
		2. With financial support from our institution	
3.	Registered Copyright	Applicant(s) and Author(s) should only be from “MCET”	Rs.1,000/-
4.	Registered Trademark	Registered Trademark should only be from “MCET”	Patent office Charges only

C) Norms for Sharing of Incentive for External Funded Projects

S.No.	Nature of External Fund	Range	Incentive Amount
1.	Research Funding (Proposals related to research only) (MODROBS, TNSCST projects, Seminar Grants etc., are not considered)	>50 Lakhs	Rs. 2,00,000/-
		>30-50 Lakhs	Rs. 1,00,000/-
		>20-30 Lakhs	Rs. 90,000/-
		>15-20 Lakhs	Rs. 80,000/-
		>10-15 Lakhs	Rs. 70,000/-
		>5-10 Lakhs	Rs. 50,000/-
		>3-5 Lakhs	Rs. 40,000/-
	The above incentives are to be shared as follows		
	Description		Percentage of Share
	Principal investigator & Faculty team members PI 40 %; Co-PI-30%; Other faculty team- 10%)		80%
	Department supporting staff involved in the project		15%
	If the department supporting staff not involved in project		10% to PI & 5% to Office
	MCET Office, Central Office and HR Office		5%
	50% of the incentives are to be distributed upon receiving first installment and the remaining 50% are to be issued after successful submission of Utilization Certificate.		

COPYRIGHT OFFICE

Reg. No. - LD-20250172448
Date 27/08/2025

D) Norms for Sharing of Consultancy Revenue

Description		Percentage of Share
Net revenue received for consultancy	Institution resources are utilized	60:40 ratio 60% to institution, 40% as incentive
	Institution resources are not utilized	40:60 ratio 40% to institution, 60% as incentive
Norms for distribution of Incentive		
Description		Percentage of Share
Faculty team members handling the consultancy		75%
Department supporting staff involved in the consultancy work		15 %
MCET Office, Central Office and HR Office		10

अज्ञानमोक्ष

E) Norms for Reimbursement of Registration Fee for Online Courses

Norms
Participation in online courses only through NPTEL, SWAYAM, COURSERA platforms are considered.
Yearly claim per faculty for maximum for 2 courses is Rs 2,200/-
OD will be provided to attend selective online course exams.
Maximum 2 days/faculty/year
Faculty members (Experience less than 5 years) are encouraged to complete modules under National Initiative for Technical Teachers Training through online mode. NITTT modules (8 nos) cost per faculty Rs. 10,000 (Rs.2000 for one-time registration and Rs. 1000 for each module) for completion. Faculty members can claim 30% of total amount after first year of registration another 50% at the end of second year and remaining 40% at the end of third year. Faculty members passing the module in first attempt are eligible for claim.

3.17 Providing support for availing the Research Contingency Grant

Guidelines for availing the Contingency Grant:

1. Faculty Eligibility:

- A maximum of Rs. 20,000 per faculty per semester may be availed.
- Faculty must have at least one Q1 or SCIE or Scopus publication as an outcome.
- A grant of up to Rs.5,000 will be provided for Scopus-indexed papers, up to Rs.10,000 for SCIE-indexed papers, and up to Rs.20,000 for Q1 journal publications.
- This grant is open to both faculty members and research faculty members
- Faculty who fails to achieve the publication requirement will be ineligible for future grants.

2. Departmental Responsibility:

- Departments should negotiate and finalize a rate contract for relevant services each FY, wherever applicable.
- Utilisation of purchased consumables should be monitored and contingency Stock register should be maintained.

3. Usage Constraints:

- The grant cannot be used to purchase any equipment.
- It can be utilized for testing, characterization, consumables, materials and cloud services that are unavailable at MCET and are not covered under any other budget heads.

4. Publication Requirements:

- Research work funded through this grant must be authored by MCET faculty.
- Collaborations are permitted only with top NIRF-ranked Government/Aided institutions or foreign universities.

5. Incentive Considerations:

- Publications resulting from this grant will not be eligible for enhanced incentives.
- Standard incentives will be considered only if the total expenditure remains below Rs.5,000 for Scopus-indexed papers, Rs.10,000 for SCIE-indexed papers, and Rs.15,000 for Q1 journal papers.

This initiative is expected to significantly enhance research productivity by enabling faculty to access critical facilities, thereby ensuring high-quality publications and innovation.

3.18 Developing In-house talent pool, providing Technical & Financial support for IPR Management

Developing an in-house talent pool is achieved through a structured process involving multiple strategic initiatives. Faculty members are encouraged to appear for the Indian Patent Agent Examination, fostering expertise in intellectual property rights and strengthening institutional knowledge in this domain. To support this, technical guidance is provided through workshops focused on Patentable Invention and Identification, ensuring that faculty and students understand the key aspects of patent filing and protection.

In addition to training, infrastructure support is enhanced with the inauguration of K.M. IP Consultancy at MCET, providing a dedicated platform for intellectual property-related discussions, collaborations, and expert consultations. Financial assistance is also extended for filing intellectual property rights, ensuring that faculty and students have the necessary resources to protect their innovations without financial constraints.

These combined efforts create a well-rounded ecosystem that promotes research excellence, enhances institutional capabilities in intellectual property, and ensures sustained innovation through structured training, technical support, and financial assistance. IPR Process flow is provided below:

3.19 Identifying & Sanctioning In-house R&D Projects for Faculty members and Students

The process of identifying and sanctioning in-house R&D projects for faculty members and students begins with the submission of proposals seeking seed money, which remains open throughout the year. Once submitted, the proposals undergo a project presentation before the Internal R&I Committee for evaluation. Upon approval, the submission of an acknowledgment form is required, followed by the initiation of equipment purchase necessary for the research. The project then progresses into the implementation phase, during which periodic review meetings are conducted to monitor advancements. Upon completion of the R&D project, the outcomes, such as patents, indexed journal publications, or conference presentations, are documented. Finally, a report and utilization certificate (UC) are submitted to conclude the process. This structured approach ensures the systematic evaluation of received proposals, selection of the most promising research initiatives, and effective allocation of funds, fostering innovation and academic excellence within the institution.

3.20 Facilitating Revenue Sharing for Consultancy Works

Consultancy works facilitate knowledge transfer, innovation, and collaboration between academic institutions, research bodies, and industries. The consultancy project workflow begins with either a pre-visit to the industry for consultancy acquisition or a direct request from the client, initiating the process with the submission of FORM 1 for client request and an expression of interest. Once the request is acknowledged, a consultancy team is formed, and if applicable, a purchase order from the industry is obtained, considering any third-party client involvement. Following this, an MoU with the client (if required) is established, marking the official commencement of the consultancy work. During the execution phase, a mid-term consultancy progress report is prepared to monitor advancements. Upon successful completion, a final consultancy completion report is generated, leading to raising the invoice and settling the bill. Subsequently, a consultancy closure report is prepared, followed by the submission of the revenue-sharing form. The process concludes with the distribution of revenue sharing, documented through FORM 4, FORM 5, FORM 6, and FORM 7, ensuring a structured and transparent consultancy execution.

D.RESEARCH AND COLLABORATION GROUPS

3.21 Establishing Student Research Council (SRC)

Preamble:

In recent years, the need of research and innovation is growing in rapid phase due to the advancement in various industries. Research is also a critical phenomenon which include studying, experimenting and innovate newer things to make human life style in comfort. In this context, introducing research focus to budding engineers becomes essential. Establishment of a student research forum is expected to facilitate multidisciplinary collaboration and provides a best platform for students to present their research findings and innovative ideas in diversified fields in engineering and technology.

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-2025011-2593
Date 27/08/2025

Student Research Council

The Student Research Council (SRC) is a student organization, partially run by students with the support of the SRC Coordinator and faculty advisor. The SRC encourages the students to organize Conference, workshop, Exhibition, Innovative projects Expo, Hackathon and Industry Experts talk also encourages the students to participate in external events like paper presentation, Innovative projects expo, Hackathon and consultancy.

The SRC helps in research enrichment for the students by engaging students in a vibrant research environment, where they will be surrounded by and can exchange research ideas with peers and near-peer mentors. It is a place where students will have the opportunity to broaden their knowledge of research and to interact with other students who have a shared interest in research.

The SRC provides a public stage for the presentation, assessment and discussion of their scientific investigations as well an opportunity to recognize and award exceptional research efforts. The council will provide exposure to talks from world-class researchers and promote interdisciplinary collaboration between industries and students to foster high-quality, innovative research that will transform our present scientific understanding and ultimately improve their knowledge.

अनिल
अनिल

Roles and Responsibilities

1. Organizing an Open House Exhibition for peers and school students

- a. Planning an open-house exhibition for peers and school students.
- b. Requesting the management's assistance for financial funding to construct a prototype or working model of the potential projects based on the recommendation of the HoD or the Faculty Advisor.
- c. Identifying the best projects done by the students for the exhibition.
- d. Preparing the posters, circulars, and flyers for promoting the Open House Exhibition.
- e. Compiling final closure reports and documenting the process.
- f. Making an effort to publish the best projects in the press.

2. Facilitating students' In-House R&D projects with seed money

- a. Collecting potential proposals from the students of MCET periodically.
- b. Reviewing the proposals with the help of nominated senior faculty members, alumni, or industry experts.
- c. Recommending the management regarding a potential proposal requiring financial support.
- d. Monitoring the progress of sanctioned projects with the help of designated faculty guides and the HoD.
- e. Arranging a final demonstration for the project's closure report.
- f. Attempting to publish the best projects in the press.

3. Conducting Workshops, Symposiums, Hackathons, or Competitions for students

- a. Preparing and planning the proposals along with the budget required for hosting (inter- or intra-) Symposiums, Hackathons, or Competitive events.
- b. Preparing the brochures and pamphlets for the events.
- c. Scheduling the hosts, faculty coordinators, or judges.
- d. Designing monetary awards and certificates for the recipients.
- e. Collecting copies of the certificates, and the proceedings for the documentation.
- f. Endeavouring to publish the best projects in the press.

4. Facilitation filling of Patent / Design / Copyright / Trademarks for students

- a. Conducting awareness programmes on "IPR and its significance" for the students of MCET.
- b. Organizing ideathon camps to attract inventions.

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/08/2025

अविनाश
अविनाश शर्मा

- c. Arranging expert review to identify potential inventions for patents, designs, copyrights, and trademarks.
- d. Seeking financial support from the management for filing the IPR with the help of the Faculty Advisor, HoDs, and IPR.
- e. Documenting and promoting the granted patents commercially.

5. Facilitating students' projects in Indexed conferences and journals

- a. Circulating various calls for indexed conferences and selecting journals through Faculty Advisors or HoDs.
- b. Arranging training sessions for the students on "Art of Writing Research Papers for Indexed Conferences and Journals" with the help of senior faculty members.
- c. Reviewing the article's similarity report in the Turnitin software before submission.
- d. Monitoring and consolidating the students' submissions to journals or conferences.
- e. Collecting and documenting the copies of the certificates and the proceedings.

COPYRIGHT OFFICE
NEW DELHI
Reg. No. - LD-20250172599
Date 27/08/2025

6. Facilitating participation in industry-driven competitive events or hackathons

- a. Identifying various competitive events in reputed industry and government bodies such as AICTE, Smart India Hackathon, etc.
- b. Identifying various industry-powered competitive events and distributing brochures among the students.
- c. Recognizing the potential students with the help of the faculty advisors and the HoDs for participation in industry-based competitive events.
- d. Monitoring the preparation level of identified batches with the assistance of faculty advisors, alumni, or industry experts.
- e. Encouraging and motivating the awardees.
- f. Publishing the details of the prize winners in the press.

7. Facilitating participation in Academic driven competitive events / Hackathons

- a. Identifying academic competitive events and distributing brochures among students.
- b. Motivating students to participate in the events conducted by centrally funded institutes such as IITs, NITs, and IIITs.
- c. Recognizing the potential students with the help of the faculty advisors and the HoDs for participation in the competitive events.
- d. Monitoring the preparation level of identified batches with the assistance of faculty advisors, alumni, or industry experts.

Encouraging and motivating the awardees.

Publishing the details of the prize winners in the press.

अनुराग मित्तल

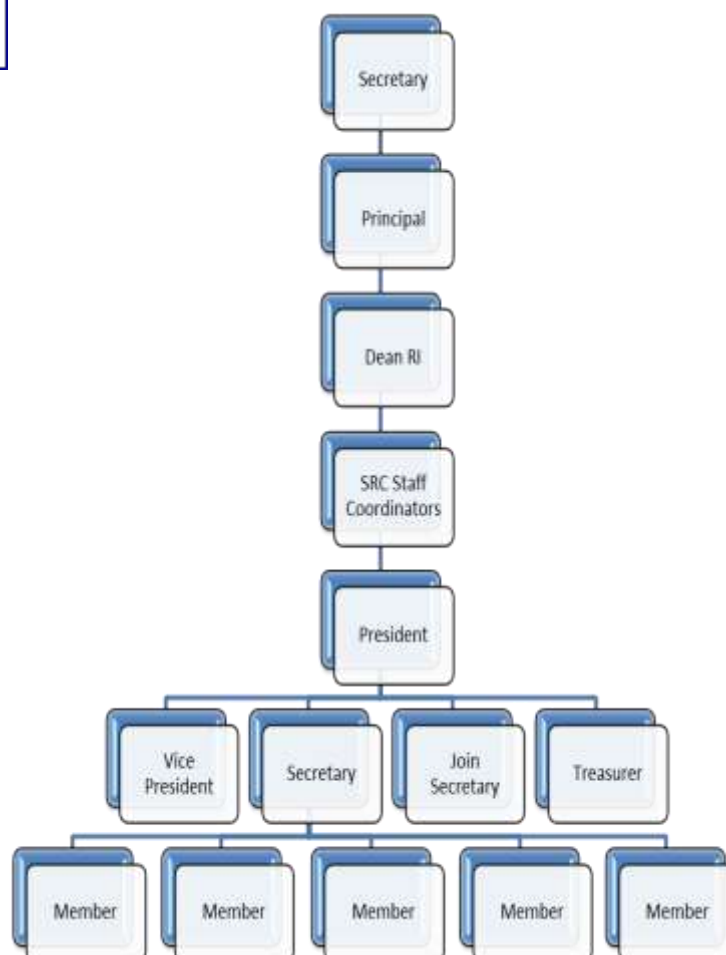

8. Facilitating students' participation in workshops and seminars at reputed institutions

- Identifying technical events at reputed institutions such as IITs, NITs, and IIITs.
- Recognizing students and their accompanying faculty members with the assistance of the HoD for their participation.
- Providing on-duty support for the participants.
- Collecting and documenting the copies of the certificates.

9. Enabling students to complete online certificate course from NPTEL and Course Era

- List of courses collect from HoDs, through NPTEL coordinator to register.
- The students also encourage completing the other online courses such as Udemy and Course era.
- Students, who successfully complete online courses such as NPTEL, will be exempted from appearing for elective courses with the recommendation of the HoDs.

3.22 Establishing Research Interest Groups (RIG)

Preamble:

A Research Interest Group (RIG) has been established with the aim of facilitating the exchange of faculty expertise among faculty members and fostering collaborative interdisciplinary research endeavours.

RIG contributes to enhancing faculty skill development by offering targeted training and sponsoring opportunities for attending training programs at centrally funded research institutions and for online certifications.

Key Features of Research Interest Groups:

- **Knowledge Sharing:** RIGs facilitate the exchange of knowledge and expertise among members through seminars, workshops, conferences, and publications.
- **Research Meetings:** Members typically meet regularly to discuss research findings, share insights, and plan collaborative projects.
- **Collaboration:** Members often engage in joint research projects, grant applications, and other collaborative activities related to their shared research interests.
- **Networking:** RIGs provide opportunities for networking and building professional relationships within the field.
- **Research Advancement:** These groups can help advance research in a particular area by pooling resources, sharing data, and promoting innovative ideas.
- **Mentorship:** Some RIGs may offer mentorship opportunities, especially for early-career researchers, to support their growth and development in the field.

There are 12 RIG domains, and each faculty member will be assigned to one domain as a primary member. Additionally, they can also serve as an auxiliary member or participate in an interdisciplinary domain. Research scholars are expected to contribute in: Research Seminar: A general discussion about the scholar's research domain and major findings. It need not be scholar's own research progress but can include seminars on emerging topics.

Research Tools Hands-On: Hands-on sessions on domain-relevant tools used by the scholar in their research activity. They can learn and demonstrate new tools within their domain or provide advanced-level hands-on sessions on the same tool.

Research Presentation: Discussion on the paper published by the scholar. If no publications are available, base papers followed by the scholar have to be presented.

3.23 Establishing Tech Express Circle (TEC)

The Tech Express Circle (TEC) is an exclusive platform designed to empower students with hands-on experience and industry-relevant skills, bridging the gap between academia and real-world applications. Through TEC, students gain access to cutting-edge domains such as Cloud Engineering, Artificial Intelligence & Machine Learning (AI & ML), Data Science, Cyber Security, Electric Vehicle (EV) Technologies, Embedded Systems, and more. The platform fosters innovation, collaboration, and skill development through workshops, mentorship programs, industry partnerships, and project-based learning, equipping students with the

expertise needed to excel in the evolving tech landscape.

3.24 Managing Institution's Innovation Council (IIC)

- Ministry of Human Resource Development (MHRD), Govt. of India has established 'MHRD's Innovation Cell (MIC)' to systematically foster the culture of Innovation amongst all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are in their formative years. MIC has envisioned encouraging creation of 'Institution's Innovation Council (IICs)' across selected HEIs. A network of these IICs will be established to promote innovation in the Institution through multitudinous modes leading to an innovation promotion eco-system in the campuses. To create a vibrant local innovation ecosystem.
- Start-up supporting Mechanism in HEIs. Prepare institute for Atal Ranking of Institutions on the Innovation Achievements Framework.

अज्ञानमोक्ष

- Establish Function Ecosystem for Scouting Ideas and Pre-incubation of Ideas.
Develop better Cognitive Ability for Technology Students.
- To conduct various innovation and entrepreneurship-related activities prescribed by Central MIC in time bound fashion.
- Identify and reward innovations and share success stories.
- Organize periodic workshops/ seminars/ interactions with entrepreneurs, investors, professionals and create a mentor pool for student innovators.
- Network with peers and national entrepreneurship development organizations.
- Create an Institution's Innovation portal to highlight innovative projects

- carried out by institution's faculty and students.
- Organize Hackathons, idea competition, mini-challenges etc. with the involvement of industries.

E.RESEARCH COMMUNICATION & PUBLICATION

3.25 Publishing Bi-monthly MCET Research Dashboard

Publishing the bi-monthly MCET Research Dashboard provides a comprehensive overview of the institution's research activities. The dashboard includes research points earned by departments over the bi-monthly periods, along with department-wise details of research publications, intellectual property rights (IPRs), and other research contributions (including unindexed or yet-to-be-indexed works). Additionally, the dashboard features a detailed report generated by AI, offering insights into the research performance and trends across various departments.

3.26 Updating Research information periodically in institution webpage

Regularly updating research information on the institution's webpage is a structured process that ensures the latest research activities, publications, and achievements are publicly accessible. This involves collecting updates from faculty and research groups, verifying and formatting the content, and publishing it in a timely manner. By maintaining an up-to-date research portal, the institution keeps stakeholders informed, enhances visibility, and showcases its ongoing contributions to knowledge and innovation. This process also fosters collaboration, attracts potential research partners, and strengthens the institution's reputation in the academic and industrial communities.

3.27 Publishing R&I Newsletter

Publishing the Research & Innovation (R&I) newsletter is a structured process that involves releasing four issues annually, each highlighting key research and innovation activities within the institution. Every issue features updates on ongoing projects, notable achievements, recent publications, and significant events such as conferences, workshops, and collaborations. The newsletter serves as a platform to showcase faculty and student research contributions, foster interdisciplinary engagement, and promote a culture of innovation. By disseminating valuable insights and progress, it enhances institutional visibility, encourages knowledge sharing, and strengthens connections with industry and academic partners.

3.28 Circulating Call for Proposals for external grants

Details about calls for proposals are periodically sent to department faculty members, inviting them to submit proposals to various agencies. Circulating the call for proposals for external grants involves a systematic process of periodically collecting, curating, and distributing information about funding opportunities, to faculty members. This proactive approach ensures that faculty are well-informed about available grants, research collaborations, and scholarly events, enabling them to explore potential funding sources and academic engagements. By regularly sharing these opportunities, the institution fosters a culture of research excellence, encourages faculty to submit competitive proposals, and supports their active participation in various academic and professional initiatives.

3.29 Publishing Research Process Handbooks

Publishing Research Process Handbooks is an essential initiative that provides faculty and students with clear, structured guidelines on conducting research, ensuring improved quality, consistency, and adherence to best practices in academic work. These handbooks serve as comprehensive resources covering various aspects of research, including ethical considerations, documentation standards, and methodological approaches. Additionally, process handbooks are prepared for various Research & Innovation (R&I) activities such as research publications, securing and managing funded projects, consultancy work, intellectual property rights (IPR), and guidelines for PhD scholars and supervisors. By standardizing research procedures across the institution, these handbooks foster a culture of academic integrity, streamline research workflows, and enhance institutional research output.

अज्ञानमोक्ष

3.30 Developing process flows, templates and forms for various R&I activities

Developing process flows, templates, and forms for various Research & Innovation (R&I) activities plays a crucial role in streamlining workflows, standardizing procedures, and ensuring efficient documentation and execution of research initiatives. These structured resources provide clear guidelines, improve consistency, and simplify administrative processes, enabling faculty and researchers to focus on high-quality research. Process flows, templates, and forms are meticulously designed for key R&I activities, including research publications, securing and managing funded projects, consultancy engagements, intellectual property rights (IPR), and support for PhD scholars and supervisors. By implementing these standardized tools, the institution enhances transparency, facilitates smoother research operations, and strengthens institutional research governance.

3.31 Creating and Updating IRINS Profile

Creating and regularly updating IRINS (Indian Research Information Network System) profiles ensures that faculty members and their research outputs are accurately represented in national databases. This process involves compiling and verifying information related to publications, projects, patents, citations, and academic contributions to maintain a comprehensive and up-to-date record. Keeping these profiles current enhances the visibility and recognition of faculty research, facilitates collaborations, and strengthens the institution's research reputation at national and international levels. Additionally, an updated IRINS profile aids in institutional benchmarking and performance assessment, contributing to overall research excellence.

अज्ञानमोक्ष

3.32 Preparing Annual reports for RIG, SRC, KSS and Annual report of R&I activities

Preparing annual reports for Research & Innovation Group (RIG), Sponsored Research Cell (SRC), Knowledge Sharing Sessions (KSS), and other Research & Innovation (R&I) activities is a structured process that provides a comprehensive summary of the institution's research progress, key achievements, and future goals. These reports document significant milestones, research publications, funded projects, consultancy activities, intellectual property developments, and academic collaborations. By systematically compiling and analyzing research data, the reports support institutional growth, enhance transparency, and ensure accountability. Additionally, they serve as valuable references for strategic planning, accreditation processes, and showcasing the institution's research contributions to stakeholders, funding agencies, and industry partners.
