A distinguished cybersecurity leader, Kamlesh Singh is a results-driven professional with extensive expertise in cybersecurity strategy development, governance risk management and compliance (GRC), incident response, and threat intelligence. With a proven track record in securing digital transformation, he consistently strives to safeguard critical systems while ensuring the integrity, confidentiality, and availability of sensitive data.

Throughout his career, Mr. Singh has held leadership positions at Infosys, CYFIRMA, Arslan SRS India, and Jio, where he spearheaded security operations, threat & vulnerability management, and risk mitigation strategies. His diverse skill set spans network security, security architecture, cloud security, identity and access management, DevSecOps, and AI-driven cybersecurity solutions. Recognized for his expertise in IT and OT cybersecurity governance, Mr. Singh also specializes in blockchain security, GDPR compliance, Archer GRC, CSA STAR, ISO 27001, ISO 31000, application security, and security by design.

An alumnus of Annamalai University and Kalinga University, Raipur, Mr. Singh holds a Master of Business Administration (MBA) in Business Administration and Management and a Bachelor of Computer Science. His commitment to professional excellence is further reinforced by his Mentor ASIS Certification, reflecting his dedication to advancing cybersecurity practices globally.

His insights into cloud computing, project management, cybersecurity governance, and defense strategies will inspire and empower the next generation of professionals.
